

BREEZE MAKE-A-CLAMP

- ① **4-piece** Quadra Lock housing
- ② **Modular interlocking band** to hardware system
- ③ **S40 Series stainless steel band** with safety edge

By simply cutting off a piece of banding from a continuous roll, you can make any size 100% stainless steel worm-gear clamp. Superior to and more versatile than "crimp/buckle" banding and strapping products.

The maintenance clamp system in a box

Breeze Make-A-Clamp gives you a reusable total maintenance clamp system in a kit, consisting of a continuous roll of stainless steel banding and all stainless steel adjustable worm-gear assembly fasteners. It's a must for anyone who's likely to encounter requirements for varying sized large clamps.

Advantages at a glance

- A maintenance "clamp system" in a box
- Make any size 100% stainless steel worm-gear clamp
- Highly versatile
- Reusable

Typical applications

- Commercial vehicles
- Passenger vehicles
- Industrial
- Infrastructure
- DIY
