NORMA Germany donates more than 2,800 euros to Maintal-based Association for the Support of Critically Ill Children

Maintal, Germany, 9 September 2013 – The Maintal-based charity organisation that helps critically ill children was happy to receive special financial support. In a small gathering, Klaus Ditzel, chairman of NORMA Germany GmbH's works council, and Gerhard Wulz, CEO of NORMA Germany GmbH („NORMA Germany“), a subsidiary of NORMA Group SE, presented Andrea Pischke who chairs the organisation with a donation of over EUR 2,800 on behalf of all employees. The organisation helps families with critically ill children to pay for expensive special treatments and purchases.

With the donation, the charity organisation will assist a family in the purchase of a special therapeutic tandem-tricycle for their child, who is suffering from physical and learning disabilities. The donation will therefore be used entirely to improve the child's quality of life. “We are pleased to receive this generous donation. With it, we can give the family and their child the necessary support in buying the therapeutic instrument,” says Andrea Pischke, who chairs the Association for the Support of Critically Ill Children.

The funds were raised from a raffle sale during a corporate event of NORMA Germany. The fund-raising event is held at regular intervals in order to support a social institution or a charity within NORMA Germany's area of activity. “We are glad that we can give some support to your association. Our raffle sale has become a fine tradition that enables us to help Maintal-based charity organisations,” says Thomas Kaltenschnee, deputy chairman of NORMA Germany's works council.
