MOLDED SILICONE ASSEMBLIES
Cell Cull - Bottle Top

Product group: Molded Silicone Assemblies
Description: Cell Cull - Bottle Top
Material: Platinum cured silicone medical grade
Characteristics: Cast from one piece
Temperature range: -20°C to max. +130°C
Certificates: USP Class VI
3A Standard
FDA 21 CFR 177.2600

Easy and Quick with moderate prices:
Our Cell Cull - Tops are manufactured from medical-grade platinum-cured silicone material that complies with USP Class VI, and USDA Standards.

Custom configurations:
The Cell Cull - Bottle Tops are also available in sizes other than those in our table below as well as in custom sizes. Please consult our factory for dimensions, design and prices.

MOLDED SILICONE ASSEMBLIES

Connectors Pump Segments

Product Group:
Molded Silicone Assemblies

Description:
Connectors Pump Segments

Material:
• platinum-cured LSR (liquid silicone rubber)

Characteristics:
• short, easy to replace pump segments for peristaltic pumps
• completely free from dead space and reductions / expansions
• with undetachable integrated gasket and supporting ring (no additional TC gasket)
• ready-to-use system manufactured under cleanroom conditions, double-packaged and gamma sterilized

Sterilization:
• sterilizable at 134°C

Certificates:
• USP Class VI Bio-Comp.
• ISO 10993-4 to 10993-18
• radiation Certificate

Brief description:
Pump tubes are subjected to very heavy mechanical loads. Connectors pump segments are highly resistant and very easy to replace. Only the segment of the pump segment that is put under the most severe stress is replaced.

Connectors pump segments are suitable for many conventional peristaltic pump heads.
For more information please contact Connectors.
