ABA ORIGINAL

ABA Original clamps feature unique, one-piece housing, rolled-up band edges and a non-perforated (embossed) band that protect the hose. For added corrosion resistance the band in the 12 mm Standard is made of Aluzinc which gives three times the protection offered by conventional galvanized steel.

ABA ORIGINAL
– Features high clamping force and high durability torque
– Aluzinc
– Also available in W5 material

The advantages at a glance

• Solid band
• Rolled up band edges
• Smooth inside
• House protected from pipe

ABA ORIGINAL STAINLESS
– All parts in AISI 304 Stainless Steel
